## PERSONAL PROFILE

Cybersecurity professional with a Master's in Cybersecurity from **Coventry University**. Skilled in penetration testing, incident response, and vulnerability assessment. Seeking a Cybersecurity Analyst role to enhance digital security and mitigate threats.

## KEY SKILLS

- **Technical:** Metasploit, Burp Suite, Nmap, OWASP ZAP, Kali Linux, SIEM (ELK Stack), Bash, Java, SQL.
- **Soft Skills:** Problem-Solving, Team Collaboration, Incident Response, Communication, Adaptability. Gained teamwork and time management skills as a Warehouse Operative at Amazon, Banbury.
- **Certifications:** Trained for CompTIA Security+, eJPT, and CEH.

## EDUCATION

### Coventry University, United Kingdom

*Master's in Cybersecurity* (09/2024 – Present)

### Government Engineering College Raichur, India, GPA: 8/10

*Bachelor of Engineering in Computer Science* (03/2020 – 04/2024)

## EXPERIENCE

### Technosoft, Cybersecurity Intern (03/2024 – 05/2024)

- Developed a privacy-preserving approach with GAN and DP, securing 2000+ user data.
- Implemented security measures securing sensitive records, maintaining data privacy within web applications effectively.
- Collaboration with 5 team members integrated encryption techniques, enhancing application security by 30%.  
( <https://drive.google.com/file/d/1MoNF41oP9DIQhsQ8mLxGCn-2FoXqPMAx/view?usp=sharing> )

### Externs Club, Cybersecurity Intern (03/2023 – 05/2023)

- Conducted vulnerability assessments using Nessus and OpenVAS, identifying over 15 critical risks.
- Improved security response time by 25% by analysing logs and drafting incident reports in Splunk.
- Conducted 3 phishing campaigns, enhancing employee security awareness by 40%.

### Infidata Technologies, Internship (08/2023 – 09/2023)

- Launched a Java-based web application, securing a 10% increase in user engagement for "Resell and Buy Things".
- Reduced security breaches by 30% through vulnerability patching and plugin upgrades.
- Enhanced security compliance by 20% by training 100+ users in multi-factor authentication.  
( <https://drive.google.com/file/d/1MzfpHvuJBzTuqQ2fGGbIS34kwbFd7wzw/view?usp=sharing> )

## PROJECTS

### Secure Website Development for JKL Healthcare Services (Coventry University | 09/2024 – 11/2024)

- Achieved HIPAA compliance with zero critical vulnerabilities in Nessus audit, improving patient data security effectiveness by 80%.
- Mitigated OWASP Top 10 risks, including SQLi and XSS.  
Repository Link: ( <https://github.com/novisdraco/jkl-healthcare-service-api.git> )

### Ethical Hacking Penetration Testing Project (Coventry University | 12/2024)

- Identified 20+ vulnerabilities during professional penetration test, resulting in a 25% security improvement.
- Analysed 2 different systems via reconnaissance, increasing awareness of vulnerabilities detected by 50%.
